A PENCIL WITH A BIG IDEA

#sustainability #ecofriendly #maketheworldsprout

Barack Obama, 44th President of the United States and global climate advocate was invited to speak at a summit about climate change, organized by Taylor's Port, a company that stands for supporting green and sustainable solutions. During this conference, the Sprout pencil was handed out to every guest as the perfect green giveaway.

SPROUT is the world's first and original patented plantable pencil. However, we don't just sell pencils. We are showing that small steps do matter when it comes to sustainability. The idea with the Sprout pencil is that you plant it when it becomes too short to write or color with. This way you give it a new life by turning the stub into flowers, herbs or vegetables. The Sprout pencil is **100% natural and biodegradable**, and it has become a popular green alternative to company plastic ballpens with logo.

The Sprout pencils are also sold onboard airlines, in more than 20 different airlines shops and has genuine clients like Disney, Coca Cola, WWF, Marriott, Toyota, McKinsey, New York Highline, Spice and Tea Exchange who believe strongly in corporate social responsibility.

Be part of a responsible establishment to save the planet. We need all to contribute in a small way to see big results.

Sprout

PLANTING GUIDE

1. Write with your pencil.

2. When it's too short, plant it! Add sunlight and water.

3. Watch the continuation of your sustainability message as the plant sprouts!

"We used the Sprout pencil as a gadget when launching the new Coca-Cola Life in Italy. We chose the Sprout pencil because it was totally aligned with the philosophy of Coca-Cola Life: Naturalness. The Sprout pencil has contributed with a lot of engagement and innovation among our consumers, and everyone has been very enthusiastic. I have received pictures of basil plants grown by children that got some of our pencils — so cute! I will definitely use Sprout products again and I already recommended them to a colleague who will develop a similar promotion."

Valentina Gardini - National Account Manager, Coca-Cola, Italy
